

BT Business Plan

How BT Business Plan brings a little more certainty to business.

Great news for Business Plan customers
Calls from fixed lines to mobiles now capped at
25p for 1 hour²

Whether it is local or national, no UK¹ call need cost more than 10p.

With BT Business Plan we've set a 10p ceiling on the cost of every UK¹ call you make under an hour. In fact, each call can last up to an hour and has a set up fee of 2p. (And, for calls under 10p there's one low pence per minute rate across the UK, so it's as easy to do business round the country as it is round the corner). So from now on, you can stay on the phone for as long as your customer or business requires you to, without having to worry about the cost of your telephone bill.

International calling made predictable.

BT Business Plan also offers capped calls on all routes to the enlarged EU, including the 10 new European Union routes. Calls to 33 European and International countries will only cost 20p for up to 60 minutes¹. Calls to the USA remain an unbelievably low 10p for calls lasting up to 60 minutes. To take advantage of these capped rates, all you need to do is commit to spending at least £750 per year.
